YMCA BEFORE & AFTER SCHOOL UPDATE 2020/2021

Saskatoon, SK: The YMCA of Saskatoon is working closely with the school divisions and superintendents to come up with a solution for families who need before and after school care for the upcoming year. This is a challenge we have not seen before but keeping your children and our staff safe and healthy is our top priority.

Registration will open on Friday, August 14, 2020 at 9 am. Parent will need a CampBrain account, which is the online platform we have been using for Schools Out Day Camps and our Summer Camps. Please be aware that our programs have been altered to fit the Covid-19 guidelines which affects the number of children per program as well as program options (i.e. drop in).

To make registration on Friday go smoothly, we are encouraging you to have your CampBrain accounts created beforehand, simply click on <https://ymcasaskatoonsummer.campbrainregistration.com/> Creating an account is easy, you can use your email and create a password. Once it is created, follow the steps.

Should there be changes to our registration dates, policies, or programs we will let registered participants know via email and on our social media platforms. As we get closer to the school year beginning, changes are inevitable, thank you for continued patience and understanding as we are working tirelessly to offer your family the best program possible.

During these unprecedented times, the YMCA remains committed to building healthy communities through programs like these. As a charity, the Y needs help, now more than ever, to continue to serve our communities with innovative and necessary initiatives. Visit www.ymcasaskatoon.org/donate to make a donation and help the YMCA continue to respond to the needs of our community.
